

Higher education and competencies for innovation

Connecting higher education, teacher education and schools to advance education for the digital and green transitions

International Peer Learning Workshop (Wednesday 22 November, 14:00 – 16:00 CET)

About this workshop

The overarching objective of this international peer learning workshop is to identify key lessons on how to establish a more structured connection between higher education, teacher education and schools to advance education for the digital and green transitions. This will be done by building on the findings included in two analytical reports (both forthcoming) on “Higher education support for effective curriculum development in schools” and “Higher education support for teachers and school leaders”, developed by the OECD Higher Education Policy Team.

Learning from experiences in Ireland and internationally, the workshop will examine two questions:

- How can higher education support the integration of digital and green competencies in **initial** teacher education programmes and activities?
- How can science communication contribute to fostering a more **continual** collaboration between teacher education institutions, higher education and school practitioners?

This event is organised by the OECD Higher Education Policy Team, in collaboration with the European Commission and Ireland’s National Forum for the Enhancement of Teaching and Learning in Higher Education. The National Forum operates under the aegis of the Higher Education Authority (HEA) and is responsible for leading and advising on the enhancement of teaching and learning in Irish higher education.

The Education and Innovation Practice Community (EIPC)

This workshop seeks to contribute to international peer learning in the Education and Innovation Practice Community (EIPC), which the European Commission’s Directorate-General for Education, Youth, Sport and Culture (Unit C.1 – *Innovation and EIT*) launched in partnership with the OECD (in late 2022). EIPC is a flagship initiative under the European Commission’s New European Innovation Agenda. Please click [here](#) to join the EIPC network.

For more information, please contact the OECD Higher Education Policy Team (HigherEducation@oecd.org) or the European Commission (EAC-UNITE-C1@ec.europa.eu).
